# Citizen science

**Montreux Clean Beach Project 3: Summer, 2017**

Three Montreux (CH) sites, in triplicate: the Sauvetage site is cleanest this week!

Negative controls:
no cfu with 4 ml tap water,
<25 cfu / 100 ml

Replicating last year's efforts

More weeks of sampling ahead!

Positive controls:
lots of colonies from 0.5ml local river water (Venoges)
>7500 cfu / 100 ml

On left, EasyGel plates with clear E. coli and more.
On right, without selection to inhibit gram+ growth,
overwhelming cfus - also with 0.5ml inoculated

hammerdirt

AGiR!
